Tartaric Acid, U.S.P

GENERAL DESCRIPTION:

Tartaric Acid, U.S.P is a white, fine to granular crystalline powder that is free from foreign matter. Tartaric Acid carries a distinctive acid taste and is odorless.

APPLICATIONS:

- ◆ Wine: Tartaric acid is a mainstay chemical in the production of wine
- ◆ Pharmaceutical: production of effervescent salts and cough syrup
- ◆ Industrial: used as a chelating agent for various metal ions.

PHYSICAL PROPERTIES:

- ◆ Appearance: White Crystals
- ◆ Color: White
- ◆ Odor: Odorless
- ◆ pH: N/A
- ◆ Melting point: 403°F

HANDLING & STORAGE:

This material should be kept in a tightly closed container and stored in a cool, dry, and ventilated area. Tartaric Acid should be separated from sources of heat or ignition. This material is hazardous and should be treated as such.
